

Seminar

Join us for light refreshments and seminars discussing **Multidimensional Microscopy utilizing Electron and Optical Techniques.**

Tuesday, March 6, 2018

Hosted by Dr. Xuejun Sun

Cross Cancer Institute
Room 3346
11560 University Ave
Edmonton, Alberta

Dendritic cell in ultrastructure. Courtesy of Dr. Peter Munro and Hannah Armer, UCL - Institute of Ophthalmology.

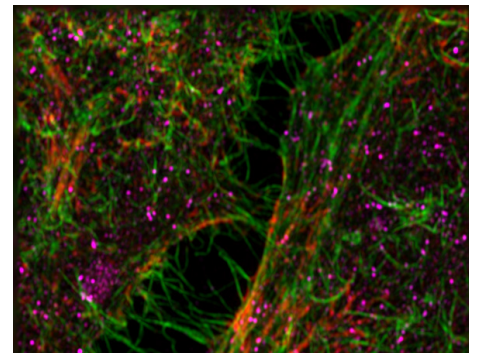

Informational Seminars

3D Imaging of Biomaterials using Electron Microscopy **10:30 am**

Dr. Kim Rensing, EM Applications Specialist

Superresolution at the Speed of Life **11:30 am**

Dr. Oliver Prange, Optical Applications Specialist

Airyscan image of HeLa cells, Actin stained with Phalloidin-Alexa 546, AP3 with Alexa 488, DAPI. Courtesy of S. Traikov, BIOTEC, TU Dresden, Germany.

Please RSVP to Lita McDonald for the seminar and to discuss sample runs.
